

The Best Disability-Friendly Portable Toilet in Australia!

Available
for Hire or
Purchase

NO Water
NO Plumbing
NO Chemicals
NO Complicated
Set-up

Key Benefits for Healthcare (Domestic Environment)

Bedroom Accessibility

The DryFlush toilet can be placed directly in a bedroom, eliminating the need for individuals with incontinence or mobility challenges to make frequent, risky nighttime trips to the bathroom. This reduces fall risks and enhances comfort.

Odour-Free Hygiene

The patented, chemical-free design ensures a clean, odourless experience, making it a superior alternative to traditional commodes that can emit unpleasant smells and require frequent cleaning.

Ease of Use for Caregivers

No plumbing or complex setup means caregivers can easily install and relocate the toilet as needed, saving time and effort in home care settings.

Portability for Flexible Placement

Its lightweight, portable design allows it to be moved between rooms (e.g., bedroom at night, living area during the day), accommodating the patient's daily routine.

Dignity and Comfort

By providing a discreet, modern toilet solution, it helps maintain the user's dignity compared to traditional commodes or bedpans.

No Water or Power Dependency

Ideal for homes with limited infrastructure or during power outages, ensuring consistent functionality without reliance on external utilities.

Reduced Maintenance

Eliminates the need for chemical cartridges, conveniently dispose of waste in the general waste bin allowing simplified care for both patients and caregivers.

Compact Design for Small Spaces

Fits easily in tight spaces like small bedrooms or apartments, making it practical for home environments.

CarePort, your portable bathroom solution

The portable CarePort unit can be provided as either a stand alone shower or shower and toilet combination, thereby providing an immediate solution for accessible showering and toileting.

The cubicle solution for virtually any type of shower stool or chair and the shower rose height can be adjusted to suit, or simply hand held.

The CarePort can be installed and removed quickly in any room of a home with minimal disruption. The freestanding unit is safe, easy to clean and conforms to the relevant Australian plumbing and electrical standards and can be supplied with an optional self contained thermostat controlled hot water service.

What are the advantages:

- Available to all areas of Victoria
- Can be located almost anywhere in the home
- May be purchased or hired
- Fantastic temporary or even longer term option bathroom solution
- Fast installation
- No need to empty waste
